

TREE SHEAR

Excavator Attachment

The RAMRADE Tree Shear is specially designed for extreme forestry applications and delivers a superior level of cutting power. It is ideal for land clearing and tackling Australian hard woods.

Specifications	Unit	DHW300
Operating Weight	Kg	3,400
Overall Length	mm	4,000
Overall Height	mm	2,075
Overall Width	mm	680
Max. Opening Width	mm	1,200
Jaw Depth	mm	1,000
Cutting Force at Tip	Tonne	90
Operating Pressure	Kg/cm	320
	PSI	4,551
Oil Flow Rate	LPM	200 ~ 250
	GPM	52.8 ~ 66.1
Suitable Excavator	Tonne	30 ~ 40

KEY FEATURES

- Size Range to suit 13 to 35 Tonne Excavators
- Ideal for Land Clearing, Wood Demolition
Debris and Wood Waste Recycling Applications
- Highly Durable and Heavy Duty
- Easily Splits Large Tree Trunks and Stumps
