

9 REASONS TO DRY HIRE

1

Infrequent Specialised Equipment

When a project
requires specialised
equipment

2

Greater Cost-Efficiency

To avoid a budget
blow-out by
knowing exactly
what it will cost to
use equipment for
the entire project

3

Reduce Ongoing Costs

To reduce ongoing
costs by only having
equipment when
you are working or
have projects on

4

No Ongoing Maintenance

To avoid ongoing
maintenance and
service costs of
equipment

5

Equipment To Spec

To comply and
undertake projects
that require specific
safety requirements

6

Short Term Growth

When additional
plant and resources
are required for a
spike in short-term
growth

7

Short Term Replacement

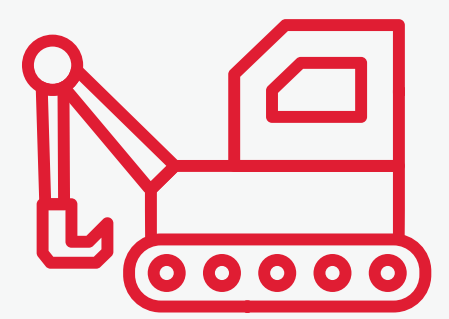

When your own fleet
is temporarily out of
service

8

Latest Technology

When you want to
reduce fuel
consumption and
site time with latest
technology.

9

Try Before You Buy

When you want to
trial equipment
before you
financially commit.
