

# PULVERISOR

Excavator Attachment

The RAMRADE Pulveriser is able to crush concrete and rock and accomplish hazardous tasks due to its purpose designed cutting blades for reinforcement bar, or small structure cutting.

Specifications	Unit	RP30N	RP42N/Q
Machine Size	Tonne	18 - 28	24 - 42
Max Jaw Opening	mm	870	1160
Max Oil Pressure	Bar	320	320
	PSI	4640	4640
Recommended Oil Flow	LPM	180	250-350
Weight	Kg	1780	3050

## KEY FEATURES

- Long Turnable Cutting Blades
- Manufactured from High Quality Wear Resistant Steel
- Large Jaw Opening
- Single Cylinder Action
- Easy to Change Teeth Design
- Fast Operating Speed
- Ideal for Secondary Pulverising
- Able to Crush Concrete and Rock and Cut Small Scale Steel
