

Case TR340

The TR340B track loader is fast and efficient — ideal both for heavy earthmoving and fine grading. It's also excellent for working with palletized materials and is a strong and stable platform for attachment operation with optional high-flow or enhanced high-flow auxiliary hydraulics.

KEY FEATURES

- Set controls with low, medium, or high responsiveness
- Excellent power to weight ratio
- Display provides real-time operations and performance data
- Selective Catalytic Reduction (SCR)
- 2 speed hydrostatic four-wheel drive
- Enhanced high-flow auxiliary hydraulics

x - Approximate fuel consumption
