

Position Description

Job Title:	Heavy Equipment Mechanic
Reporting To:	Workshop Manager
Location:	181 Richmond Road, Richmond SA 5033

Position Purpose:

RAM is seeking an experienced mechanic to join our team. As a leading provider of heavy-duty construction equipment for hire, we are dedicated to maintaining the highest standards of quality and reliability. In this role, you will be responsible for inspecting, servicing, and maintaining our diverse range of heavy machinery. Your expertise and skill will play a vital role in ensuring the operational efficiency and safety of our construction fleet.

Responsibilities:

- Conduct inspections of equipment to identify any issues or malfunctions.
- Perform routine maintenance tasks.
- Diagnose mechanical, electrical, and hydraulic problems and determine solutions.
- Conduct repairs and replacements of faulty parts or systems, ensuring adherence to safety and quality standards.
- Troubleshoot equipment on the job site to identify and resolve issues promptly.
- Drive to job sites to provide on-site repairs and maintenance as required.
- Keep accurate records of maintenance and repair work performed, including parts used and time spent.
- Stay updated on industry advancements and new technologies in heavy equipment mechanics.

Requirements:

- Certified mechanic.
- Proven experience, preferably in the construction industry.
- Knowledge of engine, electrical, and hydraulic systems.
- Troubleshoot and diagnose issues effectively.
- Strong work ethic and commitment to safety protocol

Applications:

- To apply send your cover letter and resume to careers@ramequipment.com.au
