

## ROBI DEMOLITION GRAB

The Robi DG16RD Demolition Grab is a versatile and robust attachment designed for efficient demolition, sorting, and loading tasks, particularly suited for structures composed of brick and wood.

### KEY FEATURES

- Built from durable, high-quality materials
- Features unique double dog bone mechanism
- Wide bearing ensures longer, reliable performance
- Ideal for demolition, sorting, and loading
- Quick to attach and easy to use
- Precise handling enhances safety and control
