RELIABLE  
EQUIPMENT  
& SUPPORT.  
READY  
WHEN IT  
MATTERS.

OUR FLEET

Our hire fleet includes trusted global brands including Hitachi, John Deere, Kobelco, Kubota, Wacker Neuson, and our own RAMRADE Attachments. Every machine or attachment is selected, maintained and prepared with safety, performance and reliability in mind. From sub 8 tonne compact machines through to 50 tonne excavators, articulated dump trucks, graders, loaders, dozers and rollers, our fleet is built to support demanding project environments. Where required, selected machines can be supplied with technology solutions including GPS machine control, onboard weighing, proximity systems, height control and slew control.

EQUIPMENT

|                         |            |
|-------------------------|------------|
| Excavators (GPS)        | 0.8 - 50T  |
| Wheel Loaders           | 6 - 37T    |
| Bulldozers (GPS)        | 10 - 24T   |
| Articulated Dump Trucks | 1 - 45T    |
| Track Loaders           | 4 - 6T     |
| Graders (GPS)           | 4WD OR 6WD |
| Compaction Rollers      | 1 - 20T    |
| Tipper Trucks           | 2 - 15T    |

TECHNOLOGY

|                                        |
|----------------------------------------|
| GPS / Machine Control                  |
| Onboard Weighing Solutions             |
| Proximity Sensors and Motion Detection |
| Height and Slew Control                |

ATTACHMENTS

|                       |              |
|-----------------------|--------------|
| RAMRADE Rock Breakers | 1 - 70T      |
| Cutter Crushers       | 6 - 35T      |
| Earth drills          | 1 - 50T      |
| Rotary Drum Cutters   | 8 - 35T      |
| RAMRADE Pulverisers   | 20 - 35T     |
| RAMRADE Grader Blades | Uni. Pick-up |
| Tyre Handlers         | 35T          |

## ABOUT RAM EQUIPMENT

RAM Equipment is a South Australian equipment hire and attachments provider supporting civil, infrastructure, mining, rail, pipe laying and earthmoving projects across Australia. We supply late model, low hour equipment backed by practical advice, responsive service and a team that understands the pressure of keeping projects moving. From compact machines for tight access work through to large civil equipment and specialist attachments, we help customers get the right equipment on site, ready to perform.

## OUR PURPOSE

At RAM Equipment, our purpose is simple: to make things easy for our customers. We work closely with our customers to understand the job, the site conditions and the deadline. Then we provide the right equipment, set up and support to help reduce downtime and keep work moving safely and efficiently.

## RAMRADE ATTACHMENTS

### DRIVING BREAKTHROUGH

RAMRADE Attachments is our own specialist attachment brand, developed to help customers work smarter across civil, construction, demolition, recycling, waste and earthmoving applications. The range includes hydraulic breakers, buckets, grapples, pulverisers, cutter crushers, earth drills, drum cutters and grader blades. Built with strength, reliability and performance in mind, RAMRADE attachments are designed to integrate with leading machine brands including Hitachi, John Deere, Kobelco, Kubota, CAT, Komatsu and JCB. Available to hire through the RAM Equipment fleet or purchase direct, RAMRADE gives customers access to practical attachment solutions backed by the same team that supports our hire equipment.

### BUILT FOR PROJECT DELIVERY

We understand that project sites need more than equipment. They need reliable supply, clear communication, fast response times and machines that arrive ready to work.

RAM Equipment supports customers across early works, bulk earthworks, trenching, drainage, roadworks, subdivisions, rail, mining support, remediation, demolition, material handling and site preparation.

Our team works with customers to match machines and attachments to the application, helping improve productivity, reduce unnecessary downtime and support safer outcomes on site.

### WHY WORK WITH RAM

- Late model, low-hour equipment
- Tier 1 project ready specifications
- Compact through to large civil fleet
- Specialist RAMRADE attachment range
- GPS and machine control options
- Responsive service team and workshop support
- ISO certified systems
- South Australian owned and operated
- Practical advice from an experienced team
- Flexible support across metro and regional projects

**CLIENTS INCLUDE:**

**PROJECTS INCLUDE:**

- Tram Grade Separation Project
- Torrens Road to River Torrens (T2T)
- Fleurieu Connections Alliance
- Torrens to Darlington (T2D)
- Eighty Eight O'Connell
- Lot Fourteen
- Osborne Naval Shipyard Precinct
- Lincoln Gap Wind Farm
- AIR7000 (RAAF Edinburgh)
- AIR555 (RAAF Edinburgh)
- Port Wakefield to Port Augusta (PW2PA)
- Deep Maintenance & Modification Facility

**OUR TEAM**

Our team is experienced, practical and easy to work with. From sales and transport through to workshop, service and operations, we work together to keep customers supported before, during and after hire. Whether it is a tight deadline, changing site conditions or an urgent equipment requirement, our focus is on finding a workable solution and keeping the job moving.

**ISO CERTIFIED**

RAM Equipment operates under certified management systems for quality, safety and environment.

**OUR CERTIFICATIONS INCLUDE:**

---

ISO 9001:2015 – Quality Management Systems (QMS)

---

ISO 14001:2015 – Environmental Management Systems (EMS)

---

ISO 45001 – OH&S Management Systems (OMS)

---

These systems support consistent service, safer operations and responsible environmental management across our business.
