

Wacker Neuson DV90

The Wacker Neuson DV90 has full time all-wheel drive, articulated steering and a tight turning radius giving it excellent manoeuvrability in tight or congested work areas, while a five-zone spray bar system, front-mounted water cannon, and hose reel provide flexible coverage for everything from haul road suppression to spot spraying and wash-down.

KEY FEATURES

- 8,000L capacity
- Very good gradeability
- Optimal view for safety
